---

Hi Hugo and All

In Ian's absence on annual leave, I am following up on the 3D data issue, sent across last week.

Firstly, apologies that some of you were missed from the original issue email – please see below for the links to access the data.

Mainly for Hugo (and accounts), please note that rather than pay for a full year's subscription for Nira upfront, we decided to start with the monthly billing option. This will allow you to trial the benefits for a month or two and if you are happy we can then switch to an annual subscription which will work out better value in the longer term.

We will follow up in a month or so to see how you are getting on with it.

Please revert to Matt with any queries about the data itself or using the app.

Thanks and kind regards

**David Crossley – Managing Director**

Hi Hugo

Following a few intense days for my computer we have now completed and uploaded a 3D Mesh & Orthomosaic (aerial image) for each of the 6 interface areas and for the overview

## Aerial Images

Each project is password protected (Password: 396KC) and has an individual link to Nira, this is relatively easy to navigate, please find below a link to their navigation help page.
